Eagle Tower and Ferry Bridge. The Eagle Tower of Carnarvon Castle is so named through having upon it the figure of an eagle, which was one of Edward I s crests. The lofty Tower is 124 feet above the water at its height, and has three majestic turrets, from which charming views of the surrounding country can be had. The Ferry Bridge is a convenient way of access across the River at this point. A special interest is attached to the Castle this year (1911) in the investiture of the Prince of Wales in the ancient edifice.
